Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is responsive to communications: original application filed on 03/30/2004.

Claims 1-23 are currently pending in this application. Claims 1, 11, and 23 are independent claims.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10, drawn to formula processing in a spreadsheet, classified in class 715, subclass 538;
 - II. Claims 11-22, drawing to presentation processing of a spreadsheet, classified in class 715, subclass 503; and
 - III. Claim 23, drawn to changing data in a spreadsheet, classified in class 715, subclass 530.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04,

MPEP § 808.01). In the instant case, invention I has separate utility such as *a first function for allowing a formula set operation to be redirected or modified to another spreadsheet cell, a second function for redirecting a formula set to a formulaic location within a spreadsheet cell, and a third function for allowing an evaluation of a formula set to the spreadsheet cell at formula set-time*; invention II has separate utility such as *setting a spreadsheet formula to a first spreadsheet cell, in response to setting the spreadsheet formula to the first spreadsheet cell, obtaining a formula previously set to the spreadsheet cell, determining whether data associated with the first spreadsheet cell should be redirected to a second spreadsheet cell in response to setting the spreadsheet formula to the first spreadsheet cell, and if data associated with the first spreadsheet cell should be redirected to the second spreadsheet cell, redirecting data associated with the first spreadsheet cell to the second spreadsheet cell for entry into the second spreadsheet cell*; and invention III has separate utility such as *obtaining a formula set to a target spreadsheet cell during a formula set operation, inspecting the obtained formula for any redirection or modification associated with a second spreadsheet cell as identified by the obtained formula, modifying data contained in the second spreadsheet cell as specified by the obtained formula, and redirecting the obtained formula to the second spreadsheet cell as specified by the obtained formula.*

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
